

## GS Filters

### Personal note from the Director. Our Customer Testimonies.

Since our customers have great value for our products, similarly we value our customers opinion and feedback. It is my pleasure to share some reactions as feedback we have received from our prestigious customers.

With thanks,  
Antoon Moonen, GS Filters

" We could feel a change in the house just after the Filters where installed. It feels more "clean" in some way. My wife has over a long time suffered from neck pain, but it was gone the next day and has not come back. We feel the change very good and are very satisfied."

Jan Roger F. NORWAY

" Since installing the Filters we recognise a considerable improvement to our autistic 4 year old son's behaviour. He is more open to the world around him and we see a lot of progress with his cognitive abilities. I am convinced that the Filters are not just a pill for my own headaches (I notice that the pain disappears immediately) but it seems also to have allowed my sons brain to commence a repair process."

Jeroen H. THE NETHERLANDS

" Buying these STETZERiZER's has started me on recovery from a two-year long relapse of neurological illness that has severely limited my life. They worked, they were worth every penny. I no longer lean to the right and my head no longer feels bombarded. My house feels calmer."

Diane A. USA

" A month ago I plugged in Filters in at my house. I have noticed and seen the following changes in myself: my glucose levels have decreased from 10.4 to 6.5, my eye sight has improved in both eyes by 0.5 and I feel more energised and relaxed within myself."

Jay C. THE NETHERLANDS

" After one day of installed Filters amazingly enough my sugar count this morning was 7.5, normally it would be in the high 8's or 9. Also, my partner felt no headaches and wanted to sleep a lot today but NO HEADACHES....this is amazing!"

Bernadette D. THE NETHERLANDS

" The Filters have totally made my vertigo disappear, which is wonderful. And over many years I had big problems with hallucinations at night but this too has disappeared, and I now have a good nights sleep."

Gerald M. NEW ZEALAND

" I am the school's district nurse for the past 15 years. It is my opinion that our students, our teachers and all of our support staff are much healthier than before the Filters were installed. This can be checked and verified by looking at our absences because of illness records. Teachers are stating they are less fatigued. The sense of smell has also come back for me."

Char S. District Nurse, WI, USA
